DID YOU KNOW THAT:

Less than 2% of each of your DNA molecules is used for building and replacing the body's cells?

98% of your DNA molecules is used for sending and receiving information via waves of sound and light?

**YOU ARE the
2% + the 98% !**

Each obstacle in life has 3 components:

- 1. The Physical Component** in the form of trapped energy, causing stiffness in joints, muscles, and other bodily tissues. Learn how the residue of old disappointments is trapped in your body. Learn how to eliminate them in the moment you are feeling them.
- 2. The Neurological Component** in the form of a unique circuitry of neurons, some scientists call "somatic markers". Their activities often dominate your thoughts and feelings. Learn how to recognize the resistance mechanism operating in your thoughts and feelings. Learn how to reduce and permanently dissolve it.
- 3. The Quantum Component** expressed by a unique wave signature of the DNA molecule in the cells of your body or brains. Tap into the Power of the Quantum Field, through your own DNA. Learn how to use *your voice and attention* for the creation of the *internal environment you need to succeed - in every cell of your body.*
